What is Mango Languages?

Mango Languages is an internet based language learning program. Mango Languages blends interactive tools with rich cultural imagery to keep users engaged throughout the language learning process. With learning techniques that are both effective and fun, users can choose from 45 languages, as well as 16 English as a Second Language courses.

Lessons are written by native speakers with a thorough understanding of the language and culture, and help users to learn through everyday conversations.

How does it work?

Mango Languages focuses on practical, common conversation skills, and offers varying levels of learning from “Basic” (polite conversation skills), to “Complete 2.0” (in-depth language and grammar skills).

Lessons are customizable, so users can select the most useful tools, and lessons can be completed at each individual user’s pace— go as fast or as slow as you want!

Ready to start learning?

Mango Languages can be accessed from the library, your home computer, and on the go with the Mango Languages app for iPhone, iPod Touch and Android smartphones. You just need an email address and a library card to get started!

Where will **you** Mango?

Create your Mango profile!

You will need your Cumberland Library card number to create a Mango Languages profile. Once your profile is established, you can login to Mango Languages from home, or on the mobile app.

1. Mouse over the Cumberland Public Library website’s “Entertainment & Research” and click on the “Online Resources” link from the menu. Scroll down to click on “Mango Languages.”
2. On the Mango Languages website, under the “Create a new Profile” heading, enter your email address and a password which will serve as the login for your profile. Mango Languages will send an activation email to the address you provided.
3. Follow the instructions on how to active your account contained in the email.
4. Choose a language and start learning!
